

TBAT: sort 2D shapes

Check amount of sides	
Check if sides are straight	
Count vertices - where two sides meet	

Cut out all shapes below and then sort into the correct groups on the other pages. Some might ask for shapes with straight sides or 4 vertices.

Shapes with sides the same  
length

Shapes without all sides the  
same length

--	--

Shapes with 4 or more vertices

Shapes with less than 4 vertices

--	--

Shapes with straight sides

Shapes without straight sides

Shapes that have 3 or less sides

Shapes that have 4 or more  
sides
