

Maths

We will be working on;

- addition and subtraction
- multiplication and division (Y2)
- fractions
- mathematical movement
- measure

Art

We will start our topic by making models of our favourite food. We are going to investigate the work of Archimiboldo and Matisse and will create our own collages.

Music

We will be exploring pulse and rhythm and playing tuned and un-tuned instruments.

Geography

In geography we will be finding out about the different oceans and continents in the world. We will be finding out about food production and where our food comes from.

From Plant to Plate

D.T

In D.T we are going to create our own healthy dishes. This will involve us shopping for ingredients and working within a budget. We are hoping to write a recipe book for the things we create.

English

We will be writing:

- reports
- adventure stories
- recipes
- instructions

Science

We are going to be finding out about different plants and how they grow. We will be growing fruit and vegetables that we will (hopefully) eat.

PE

This term we will be learning traditional country dances.

RE

This term we will looking at different creation stories and thinking about religious attitudes to the world.
