

# We Have Lift Off

## Planet Earth

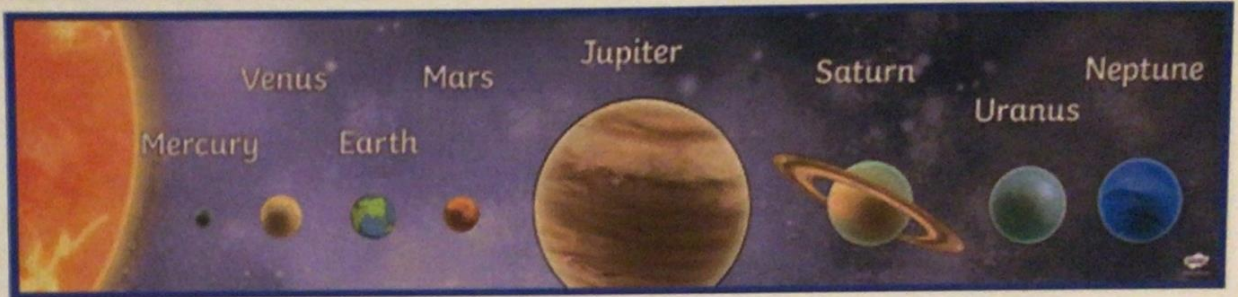

Day Night

Orbit is when a planet moves around another planet.

The earth orbits the sun. The moon orbits earth.

Planets in our solar system

The first man on the moon was Neil Armstrong.

Gravity pulls things down towards the ground on earth. There is less gravity on the moon.

Spring is the season when new plants start to grow and it becomes warmer.

Easter is a festival where Christians think about the death of Jesus.
